M.L., Los Angeles

"The installer did an excellent job. We are 100 percent satisfied!"
Newhope Assembly of God Church, Santa Ana

Residents and business owners rely on Post for around-the-clock service backed by a solid record in response and protection.

At Post Alarm Systems, we are proud to be one of the oldest and most respected privately held firms in California dedicated to customer satisfaction and long-term client relationships.

A System to Fit Your Every Need

When engineering a Post alarm system, all aspects of your lifestyle or business are considered. No matter what your requirements, Post sales consultants will design a cost effective and efficient alarm system to suit your environment.

We're Looking Out for You 24 hours a day - 7 days a week

By utilizing state-of-the-art computer monitoring, our Post Central Station is protecting your home or business. Alarm activation is immediately processed and the proper authorities are notified.

Post also offers back-up cellular transmission in case regular phone lines are compromised.

Post provides 24-hour armed patrol and response services including phone and alarm activation response, special watch and routine patrols.

Quality Service & Installation

Post alarm technicians take great pride in their craftsmanship. Factory training and ongoing workshops add to their professionalism. Whether it's a residential or commercial installation, our technicians work efficiently to minimize any inconvenience in your home or interruptions to your business.

Our Investment in Technology Helps Lower Your Costs

At Post we offer you security solutions such as commercial on-line video monitoring. By installing CCTV cameras in your facility we can monitor any and all activity. In the event of an intruder, warnings can be made over a public address system. Businesses located in remote areas such as industrial complexes or convenience stores may benefit from this type of coverage.

On-line video monitoring technology can cut down your company's overall security guard costs by as much as 50%.

Two Locations to Serve You- Our corporate office in Arcadia is the site of our U.I. Listed Central Station. Additionally, we are approved to install, service, monitor and maintain Fire Department mandated systems, as per U.I. requirements.

Our second location in Irvine, is home to the Post Advanced Technology group with specialties in Closed Circuit Television (CCTV), Access Control and Integrated Alarm Systems.

POST consistently ranks in the top 100 on the SDM residential listing.

The SDM 100 companies are ranked first by total 1994 revenue and second by the number of customer accounts. Additional information is provided by each firm, such as recurring annual revenue.

POST was founded in 1956 by Sam Post, a former Chief of Police. What began as a community patrol service has since grown into a respected full-service security company. Today, Post Alarm Systems is as committed to providing quality service as the day the company was founded.
